

Memorandum

TO: Office Personnel & Park Managers
FROM: Board of Directors
DATE: April 15, 2009
SUBJECT: Breed Restriction & Dog Registration

Please be aware of the following policy changes effective immediately:

Breed Restriction: The dog breed restriction is lifted to allow all approved dogs to be brought to the parks based upon the following criteria/requirements:

All dogs must be registered with required fee paid and documentation provided, to include proof of liability insurance and rabies vaccination; If members do not have liability coverage of \$50,000 minimum or a surety bond, their dog/s will not be allowed in the park. No liability insurance, members cannot bring their dog/s to the park. Due to the close proximity and strange surroundings experienced by the dog/s, strict adherence to the Camperworld pet policies will be expected by all pet owners.

Pet Registration: The pet registration fee of \$25 is a one-time application fee for the first time registration of up to two dogs. Members will be required to confirm continued ownership of the registered dog/s, validate rabies vaccination and liability insurance coverage (see above requirement) on an annual basis. The registration fee will be charged for the first time registration of a newly acquired dog by pet owner/s.
